# 1 Getting Started with SAP Ariba Buying, Base Edition

This guide is for administrators responsible for setting up and managing SAP Ariba Buying and for users who want to order items they need for work.

This documentation applies to SAP Ariba Buying, base edition (set on SAP BTP), which is integrated with SAP S/4HANA Cloud. If you're looking for information about the SAP Ariba Buying solution package that's part of SAP Ariba Procurement solutions, see the Related Information section below.

## Note

The features described in this document require a 3-system landscape.

## 2 About SAP Ariba Buying, Base Edition

SAP Ariba Buying offers users a personalized, guided process for finding and ordering things they need for work. It allows buyers and suppliers to integrate procurement solutions with their procurement process seamlessly.

SAP Ariba Buying provides the following:

- Seamless integration with SAP S/4HANA Cloud
- Simplified user experience for buyers, approvers, and administrators
- Ability to allow users to shop from internal catalogs in your SAP Ariba procurement solution, public catalogs on SAP Business Network, and Amazon Business

### Note

The features described in this document require a 3-system landscape.

## Where Can I Find More Information

We recommend that you read this guide first to become familiar with the supported functionality. To learn more, see the following guides:

Guide	Read This Guide to Know More About...
<a href="#">Steps for Setting Up SAP Ariba Buying, Base Edition</a>	Steps required to set up SAP Ariba Buying.
<a href="#">Administration Guide for SAP Ariba Buying, base edition</a>	Configuration needed to set up SAP Ariba Buying.  This guide also includes information about the security features.
<a href="#">User Guide for SAP Ariba Buying, Base Edition</a>	User tasks about how to search for and view items, submit requests, and track the status of requests.

<a href="#">Feature Scope Description</a>	The scope of the supported functionality.
<a href="#">Subscription Packages for SAP Ariba Buying</a>	Subscription packages that SAP Ariba Buying offers.

## 3 Supported Features Summary

There are features for buyer users, administrators, and approvers in SAP Ariba Buying, base edition.

The features that you can use depend on the license, roles, and permissions that are assigned to you in the system. For more information, see [Feature Scope Description](#).

### Integration with SAP S/4HANA Cloud

User interface integration with SAP S/4HANA Cloud is supported for the apps in SAP Ariba Buying, base edition. You can find more information on integration [here](#).

#### Note

The features described in this document require a 3-system landscape.

## 4 Accessibility Features in SAP Ariba Buying, Base Edition

To optimize your experience, SAP Ariba Buying provides features and settings that help you use the software efficiently.

### Note

SAP Ariba Buying is based on SAPUI5. For this reason, accessibility features for SAPUI5 also apply. See the accessibility documentation for SAPUI5 on SAP Help Portal at [Accessibility for End Users](#).

For more information on screen reader support and keyboard shortcuts, see [Screen-Reader Support for SAPUI5 Controls](#) and [Keyboard Handling for SAPUI5 Elements](#).

# Important Disclaimers and Legal Information

## Hyperlinks

Some links are classified by an icon and/or a mouseover text. These links provide additional information.

About the icons:

- Links with the icon  : You are entering a Web site that is not hosted by SAP. By using such links, you agree (unless expressly stated otherwise in your agreements with SAP) to this:
  - The content of the linked-to site is not SAP documentation. You may not infer any product claims against SAP based on this information.
  - SAP does not agree or disagree with the content on the linked-to site, nor does SAP warrant the availability and correctness. SAP shall not be liable for any damages caused by the use of such content unless damages have been caused by SAP's gross negligence or willful misconduct.
- Links with the icon  : You are leaving the documentation for that particular SAP product or service and are entering an SAP-hosted Web site. By using such links, you agree that (unless expressly stated otherwise in your agreements with SAP) you may not infer any product claims against SAP based on this information.

## Videos Hosted on External Platforms

Some videos may point to third-party video hosting platforms. SAP cannot guarantee the future availability of videos stored on these platforms. Furthermore, any advertisements or other content hosted on these platforms (for example, suggested videos or by navigating to other videos hosted on the same site), are not within the control or responsibility of SAP.

## Beta and Other Experimental Features

Experimental features are not part of the officially delivered scope that SAP guarantees for future releases. This means that experimental features may be changed by SAP at any time for any reason without notice. Experimental features are not for productive use. You may not demonstrate, test, examine, evaluate or otherwise use the experimental features in a live operating environment or with data that has not been sufficiently backed up.

The purpose of experimental features is to get feedback early on, allowing customers and partners to influence the future product accordingly. By providing your feedback (e.g. in the SAP Community), you accept that intellectual property rights of the contributions or derivative works shall remain the exclusive property of SAP.

## Example Code

Any software coding and/or code snippets are examples. They are not for productive use. The example code is only intended to better explain and visualize the syntax and phrasing rules. SAP does not warrant the correctness and completeness of the example code. SAP shall not be liable for errors or damages caused by the use of example code unless damages have been caused by SAP's gross negligence or willful misconduct.

## Bias-Free Language

SAP supports a culture of diversity and inclusion. Whenever possible, we use unbiased language in our documentation to refer to people of all cultures, ethnicities, genders, and abilities.
